

## 17 Create hotel chic

For a luxurious hotel inspired home with sophisticated style, for your bedside and dressing, some headings will give your window a contemporary feel. *Contemporary in Texture Book, from page 128, page 114, Amazon.co.uk*

## 18 Block out light

Keep the little darlings at bay for as long as possible by fitting a blackout blind in the children's room. The light-blocking coating on the reverse of the blind is especially useful in the summer months. *Blackout Roller Blinds from £124 for 100cm x 100cm, Amazon.co.uk*

## 19 Go for sill-length blinds

If you've got a radiator under your window, you need sill-length blinds that look great but won't stop the heat from warming the room. *Shutter Your Dormer Blinds, £112 each for 80cm x 100cm, Amazon.co.uk*

## 20 Dress up your dormer window

Plantation shutters are perfect for awkward dormer windows – open them up or just angle the slats when you want to let light in. *Shutters, from £250 per sq m, including consultation and installation, ShutterlyFabulous*
